## Management Comments on Fourth Quarter Performance

"NMFC is off to a strong start in 2025," said Steven B. Klinsky, NMFC Chairman. "The partial sale of UniTek is an important milestone for NMFC. The transaction values UniTek at \$370 million, above our current mark. NMFC and affiliates will retain 31% ownership in the company which we believe has very good future prospects related to fiber deployment and

AI infrastructure."

John R. Kline, CEO, commented: "NMFC delivered steady results while preserving excellent credit performance in the fourth quarter of 2024. Over the course of 2024, we made meaningful progress on increasing our senior-oriented asset mix. Building on that momentum, the recently announced UniTek transaction highlighted the New Mountain team's business building capabilities and deal execution skills. In 2025, we will remain focused on our strategic priorities which include diversifying NMFC's top positions, optimizing the fund's liabilities, and exiting PIK positions."
