We believe that the strength of the Company's unique investment strategy – which focuses on middle market defensive growth companies that are well researched by New Mountain Capital, L.L.C. ("New Mountain"), a leading alternative investment firm, is underscored by continued stable credit performance. The Company has had only twelve portfolio companies, representing approximately \$276 million of the cost of all investments made since inception in October 2008, or approximately 3.0% of \$9.2 billion, go on non-accrual.

"We believe New Mountain's strategy of focusing on 'defensive growth' industries and on companies that we know well continues to prove to be a successful strategy," added Steven B. Klinsky, NMFC Chairman. "We believe one of our keys to success is the strength of the team, which we continue to build over time, now at over 190 employees and senior advisors."

Robert A. Hamwee, CEO, commented: "Our portfolio continued to perform well through Q4 as evidenced by our ongoing growth in book value, which increased 1.7% this quarter. We had another strong origination quarter and continue to find compelling opportunities to invest in high-quality, defensive growth companies."

John R. Kline, President, commented: "We are pleased to announce a first quarter distribution of \$0.30 per share based on our expectation that Q1 Net Investment Income will be at least \$0.30 per share. Given our outlook for consistent operating performance and continued support, if needed, from our investment advisor, we remain confident that our Net Investment Income will continue to cover our quarterly dividend for the foreseeable future."

### **Portfolio and Investment Activity<sup>1</sup>**

As of December 31, 2021, the Company's NAV was approximately \$1,321.2 million and its portfolio had a fair value of approximately \$3,195.8 million in 106 portfolio companies, with a weighted average YTM at Cost<sup>2</sup> of approximately 9.1%. For the three months ended December 31, 2021, the Company generated approximately \$251.6 million of originations in twelve new portfolio companies and approximately \$103.7 million of originations, including commitments<sup>3</sup> for follow-on investments in sixteen portfolio companies held as of September 30, 2021. For the three months ended December 31, 2021, the Company had \$102.5 million of asset sales and cash repayments<sup>3</sup> of approximately \$147.3 million.

### **Consolidated Results of Operations<sup>4</sup>**

#### *Quarterly Results*

The Company's total investment income for the three months ended December 31, 2021 and 2020 was approximately \$67.8 million and \$67.8 million, respectively.

The Company's total net expenses, after income tax expense, for the three months ended December 31, 2021 and 2020 were approximately \$38.2 million and \$38.7 million, respectively. Total net expenses, after income tax expense, for the three months ended December 31, 2021 and 2020 consisted of approximately \$18.2 million and \$18.6 million, respectively, of costs associated with the Company's borrowings and approximately \$17.7 million and \$17.7 million, respectively, in net management and incentive fees. On November 1, 2021, the Company entered into Amendment No. 1 to the Investment Management Agreement ("Amendment No. 1") which reduced the base management fee from 1.75% of the Company's gross assets to 1.4% of the Company's gross assets. Since the Company's initial public offering ("IPO") and through November 1, 2021, the date of Amendment No. 1, the base management fee calculation has deducted the borrowings under the New Mountain Finance SPV Funding, L.L.C. credit facility (the "SLF Credit Facility"). The SLF Credit Facility had historically consisted of primarily lower yielding assets at higher advance rates. As part of an amendment to the Company's existing credit facilities with Wells Fargo Bank, National Association, the SLF Credit Facility merged with the NMF Holdings Loan and Security Agreement, as amended and restated, dated May 19, 2011 and into the Second Amended and Restated Loan and Security Agreement with Wells Fargo Bank, National Association on December 18, 2014, which was amended and restated on October 24, 2017 by the Third Amended and Restated Loan and Security Agreement with Wells Fargo, National Association (the "Holdings Credit Facility"). The amendment merged the credit facilities and combined the amount of borrowings previously available. Post credit facility merger and to be consistent with the methodology since the Company's IPO, the Investment Adviser continued to waive management fees on the leverage associated with those assets held under revolving credit facilities that share the same underlying yield characteristics with investments leveraged under the legacy SLF Credit Facility. Effective as of and for the quarter ended March 31, 2021 through the quarter ending December 31, 2022, the Investment Adviser has entered into a fee waiver agreement (the "Fee Waiver Agreement") pursuant to which the Investment Adviser will waive base management fees in order to reach a target base management fee of 1.25% on gross assets (the "Reduced Base Management Fee") as opposed to the Company's then-current (i.e., prior to Amendment No. 1) base management fee of 1.75% on gross assets less the borrowings under the SLF Credit Facility and less cash and cash equivalents. On November 2, 2021, the Investment Adviser extended the term of the Fee Waiver Agreement to be effective through the quarter ended December 31, 2023, rather than the quarter ended December 31, 2022. If, for any quarterly period during the term of the Fee Waiver Agreement, the Reduced Base Management Fee would be greater than the base management fee calculated under the terms of the Investment Management Agreement, as amended by Amendment No. 1 (i.e., 1.4% of the Company's gross assets), the Investment Adviser shall only be entitled to the lesser of those two amounts. The Investment Adviser cannot recoup management fees that the Investment Adviser has previously waived. For the three months ended December 31, 2021 and 2020 management fees waived were approximately \$1.9 million and \$2.7 million, respectively. The Company's net direct and indirect professional, administrative, other general and administrative and income tax expenses for the three months ended December 31, 2021 and 2020 were approximately \$2.3 million and \$2.4 million, respectively.

---

For the three months ended December 31, 2021 and 2020, the Company recorded approximately \$22.6 million and \$37.0 million, respectively, of net realized and unrealized gains.

#### *Annual Results*

The Company's total investment income for the years ended December 31, 2021 and 2020 was approximately \$269.6 million and \$272.8 million, respectively.

The Company's total net expenses, after income tax expense, for the years ended December 31, 2021 and 2020 were approximately \$152.1 million and \$156.3 million, respectively. Total net expenses, after income tax expense, for the years ended December 31, 2021 and 2020 consisted of approximately \$73.1 million and \$78.1 million, respectively, of costs associated with the Company's borrowings and approximately \$69.6 million and \$69.4 million, respectively, in net management and incentive fees. For the years ended December 31, 2021 and 2020, management fees waived were approximately \$13.1 million and \$12.3 million, respectively. For the years ended December 31, 2021 and 2020, incentive fees waived were approximately \$0 and \$0.5 million, respectively. The Company's net direct and indirect professional, administrative, other general and administrative and income tax expenses for the years ended December 31, 2021 and 2020 were approximately \$9.4 million and \$8.8 million, respectively.

For the years ended December 31, 2021 and 2020, the Company recorded approximately \$83.9 million and \$(58.1) million in net realized and unrealized gains (losses), respectively.

#### **Liquidity and Capital Resources**

As of December 31, 2021, the Company had cash and cash equivalents of approximately \$58.1 million and total statutory debt outstanding of approximately \$1,626.9 million<sup>5</sup>, which consisted of approximately \$545.3 million of the \$730.0 million of total availability on the Holdings Credit Facility, \$127.2 million of the \$198.5 million of total availability on the Company's senior secured revolving credit facility (the "NMFC Credit Facility"), \$226.3 million of the \$280.0 million of total availability on the Company's secured revolving credit facility (the "DB Credit Facility"), \$0 of the \$50.0 million of total availability on the uncommitted revolving loan agreement (the "Unsecured Management Company Revolver"), \$15.2 million of the \$20.0 million of total availability on the senior secured revolving credit facility (the "NMNLC Credit Facility II"), \$201.4 million<sup>6</sup> of convertible notes outstanding and \$511.5 million of unsecured notes outstanding. Additionally, the Company had \$300.0 million of SBA-guaranteed debentures outstanding as of December 31, 2021.

#### **Portfolio and Asset Quality<sup>1</sup>**

The Company puts its largest emphasis on risk control and credit performance. On a quarterly basis, or more frequently if deemed necessary, the Company formally rates each portfolio investment on a scale of one to four. Each investment is assigned an initial rating of a "2" under the assumption that the investment is performing materially in-line with expectations. Any investment performing materially below our expectations, where the risk of loss has materially increased since the original investment, would be downgraded from the "2" rating to a "3" or a "4" rating, based on the deterioration of the investment. An investment rating of a "4" could be moved to non-accrual status and the final development could be an actual realization of a loss through a restructuring or impaired sale.

As of December 31, 2021, seven portfolio companies had an investment rating of "3" and six portfolio companies had an investment rating of "4". The Company's investments in the portfolio companies with an investment rating of "3" had an aggregate cost basis of approximately \$138.6 million and an aggregate fair value of approximately \$100.3 million. The Company's investment in portfolio companies with an investment rating of "4" had an aggregate cost basis of approximately \$124.4 million and an aggregate fair value of approximately \$39.4 million.

<sup>1</sup>Includes collateral for securities purchased under collateralized agreements to resell.

<sup>2</sup>References to "YTM at Cost" assume the accruing investments, including secured collateralized agreements, in our portfolio as of a certain date, the "Portfolio Date", are purchased at cost on that date and held until their respective maturities with no prepayments or losses and are exited at par at maturity. This calculation excludes the impact of existing leverage. YTM at Cost uses the LIBOR curves at each quarter's respective end date. The actual yield to maturity may be higher or lower due to the future selection of LIBOR contracts by the individual companies in the Company's portfolio or other factors.

<sup>3</sup>Originations exclude payment-in-kind ("PIK"); originations, repayments, and sales excludes revolvers, unfunded commitments, bridges, return of capital, and realized gains / losses.

<sup>4</sup>Excludes net income related to non-controlling interests in NMNLC. ## ABOUT NEW MOUNTAIN FINANCE CORPORATION

New Mountain Finance Corporation is a closed-end, non-diversified and externally managed investment company that has elected to be regulated as a business development company under the Investment Company Act of 1940, as amended. The Company's investment objective is to generate current income and capital appreciation through the sourcing and origination of debt securities at all levels of the capital structure, including first and second lien debt, notes, bonds and mezzanine securities. The Company's first lien debt may include traditional first lien senior secured loans or unitranche loans. Unitranche loans combine characteristics of traditional first lien senior secured loans as well as second lien and subordinated loans. Unitranche loans will expose the Company to the risks associated with second lien and subordinated loans to the extent it invests in the "last out" tranche. In some cases, the investments may also include small equity interests. The Company's investment activities are managed by its Investment Adviser, New Mountain Finance Advisers BDC, L.L.C., which is an investment adviser registered under the Investment Advisers Act of 1940, as amended. More information about New Mountain Finance Corporation can be found on the Company's website at <http://www.newmountainfinance.com>.
